One of the keys to  
the future of racing  
is young people.

The Race For Education is a national education scholarship foundation funded by various parties related to or with an interest in the Thoroughbred racing industry. It is a non-profit 501(c)(3) organization established in 2002 to improve the quality of life for farm and track workers' families through education, to attract younger and better educated individuals to careers in the Thoroughbred industry and to establish the racing industry as a good citizen of the community.
